CHAPTER II: OFFICIAL COMPETITIONS

II.1. DEFINITION

The Competitions in the Official Calendar are **“Official Competitions”**.

“Official Competitions” are divided into:

II.2. CATEGORY, NAME, LICENCES AND UMPIRING

II.2.1. Category and Official Calendar

- II.2.1.1.** “Official Competitions” are the direct responsibility of the IPF as regards the Competition Rules and Regulations, Disciplinary Rules and Regulations, Game Rules, etc.. They decide World Champions or Continental o Regional Champions or simply count towards the Official IPF Rankings. Those competitions that do not meet the indicated requirements but which have been included on the Organiser’s request in the Official Calendar on the condition that they respect all the IPF Rules and Regulations will also be considered as “Official Competitions”.
- II.2.1.2.** The following will be included in the Official Calendar: World Championships in all categories, Continental Championships, Regional Championships and those International Tournaments that, in the opinion of the IPF, form part of a sports project that meets all the appropriate budgetary, sponsorship and organisational conditions.
- II.2.1.3.** In order to count towards the IPF Ranking an event must be included in the Official Calendar.
- II.2.1.4.** The Competitions requests must be made to the IPF via the corresponding National Federations/Associations who must ensure that IPF Rules and Regulations are respected. If the IPF considers it convenient, they sign contracts awarding competitions to Potential Organisers, but if these have the authority to choose the country in which the competition will be held, the application must be escalated to the IPF via the Federation/Association of the Associate Member. The Association/Federation will give course to the request if in agreement but should it do so it will have to respect the terms agreed between the IPF and the Potential Organizer.
- II.2.1.5.** If the IPF considers it convenient, they sign contracts awarding competitions to Potential Organisers, but if these have the authority to choose the country in which the competition will be held and select a country without Associate Member, the application must be escalated to the IPF directly and will be

provided the necessary help to IPF to carry out the own functions of supervision and control, in order to approve the competition.

II.2.1.6. When presented a request for a number of International Tournaments higher than four (4) and to be held at least in three (3) different countries, it will be considered it is a "circuit". The Circuits shall be requested to the IPF directly from the Potential Organisers. In the case the Potential Organiser is a registered Promotion company, the IPF will inform the corresponding National Associations or Federations, asking for the acceptance, and will join the IPF in the control of IPF Rules and Regulations respect. II.2.4. Umpiring

II.2.4.1. The special features of Padel and the lack of means at specific times, means that it is impossible to demand the presence of an Umpire in all matches. When this occurs, the players themselves should apply the Game Rules, as a general rule, each couple umpiring in their own court.

In the event that it is not possible to reach an agreement concerning a specific point or action, the presence of the Referee will be requested, this person taking the final decision once both sides have been heard.

Control of the march by the Umpires and their team can have two different modalities:

- Active Umpiring: In active umpiring play stops once the umpire has called a decision signalling all infractions to the rules. II.9.15.

- **Passive umpiring:** In passive umpiring the umpiring team intervenes directly when points named in II.9.14. arise but in all others act at the request of players.

II.2.4.2. The IPF will determine whether the umpiring is active or passive but their decision should be known before the competition begins.

II.2.4.3. The Chair Umpire shall be obligatory in all finals and semi-finals of the FIP 1000 Plus, FIP 1000, FIP 500 and FIP 250 tournaments included in the IPF Official Tournaments Schedule. It is not mandatory, but suggested, in the FIP 125, FIP 100 or FIP Challenger tournaments.

The said Provisional Calendar will provide guidance concerning the name of the competition, the prize amount, venue and probable dates.

The Board of Directors, once they have attended to the comments of the interested parties, will draw up the Official Calendar, no later than the 31st of January, after which it can no longer be modified related to date of World Championships to avoid affecting the calendars of the Associated Members.

In cases of exception, the IPF, in defence of the promotion of padel, can decide to authorise holding the tournament in installations that do not meet the mentioned requirements, providing the courts respect the IPF's Rules for the Game of Padel. Competitions will always be held on courts with lighting with the same type of walls and surface. When the courts where the matches to be held are of different surface or construction (glass and brick-wall) the criteria to be followed for the adjudication should be publicly established beforehand, included the possibility for the organiser to assign the court due to TV needs. Should the report be negative, the Organiser, the Referee of the competition and the Owner of the installations will immediately be informed so they can remedy the notified faults before the start of the matches. - III.3.13.** In competitions in which there is a consolation phase, the doubles pairs who have the right to play in it and desire to do so, should inform the Referee within thirty (30) minutes of the end of their match. The consolation tournament not assign points for the IPF ranking, the points obtained by any double pair participating to the consolation phase depending on the position reached in the Main Draw, in the Qualifying Draw or in the pre-Qualifying Draw of the corresponding tournament.
