

Dear Associated Member,

First, I wish health to you and to all your family members in these difficult times we are going through.

From the IPF, we believe in the importance of accompanying with conscience the pandemic situation that affects the entire world, and from our place we will try to support as much as we can the all Padel community.

In this way, we have been working on a "PROTECTION PROTOCOL" for the safe practice of Padel.

We have prepared it being aware of the difficult situation that many federations and clubs may be going through due to the lack of activity, a concern that we share. The main intention is to help the National Federations that take part in the IPF, so that they can also help their associated clubs.

In this PROTOCOL we have worked with a group of international medical advisers who are working on the health emergency caused by COVID19, we have also used the advice of important club directors together with their work teams, experienced coaches, and elite players.

Please point out that the attached PROTOCOL does not replace any measure provided by the respective governments in each country, nor does it intend to supplant any decision made by each federation in its own context and circumstances.

Its specific goal is to make it as a useful tool for the return to sports activity in countries where they are currently suspended by decree, and we believe that it can help a lot in countries where the compulsory cessation of activity has not been decreed, since its objective is to provide the maximum guarantees of safety in the practice of Padel.

Here attached you can find the PROTOCOL in its English and Spanish versions, it is also possible that the IPF may add the logo of any of the member Federations (example attached).

In this manner, if any of you are interested you should only reply to this email, with the appropriate request, and we will send it to you with your logo included. (We inform that the protocol does not admit copying, since it has been registered, and is protected by copyright).

If you have any doubts or clarifications, or if you understand that the IPF may be useful to you, do not hesitate to contact us.

With the faith and hope that we will see each other on the Padel courts soon.
