

Padel will be there
**APPOINTMENT
WITH THE
HISTORY**

PADEL CONTINUES ITS UNSTOPPABLE GROWTH

Padel is once again met up with history and confirms the good work of the Federations, obtaining an achievement that brings us even closer to the Olympic dream.

Today the acceptance of the Padel discipline as a sport has been confirmed, and it will be part of the medals at the XII South American Games to be held in Asuncion, Paraguay in October 2022.

The continent that experienced the first great expansion of Padel in the 90s will be able to enjoy being part of the most important sports competition in South America.

The numbers speak for themselves and it is the reason that has led the South American Padel to be included in the medal table.

The South American member countries of the International Padel Federation (FIP) have been protagonists in all the World Championships editions, always obtaining more than satisfactory results, being among the top 8 countries in the ranking on the historical scale.

Thanks to the work of our members, the American Padel Federation (APF) and the FIP, Padel continues to reaffirm itself.

This great news confirms and shows that our beloved sport is here to stay in the most important competitions in the world.

With this there are already three continental games with confirmed Padel:

SOUTH AMERICAN GAMES

EUROPEAN GAMES

ASIAN GAMES

Long live Padel.
