Padel is already a reality that moves multitudes of people globally, including for the World Championships, after the success of its last edition, that represented a new era for our sport. Seen the unprecedented overall registration of **40 countries** in both the Qualification Stage (Africa – Asia, South America, North America, and Europe) and the Final Stage, FIP continues to improve the most important competition of Padel.

The first ever Padel World Championships with Prize Money

The XVI Padel World Championships will feature a **Prize Money of € 500,000** to be distributed, equally between men and women, to all countries qualified to the final stage, the distribution of the Prize Money will be handled by the Federations.

As for its venue, due to some force majeure issues that prevented the Qatar Federation (QTF) from organising the event in the planned dates, the Executive Board of FIP deliberated that the XVI edition of the World Padel Championships will be staged in **Dubai, United Arab Emirates, from 31 October to 5 November 2022** and will be organised by the affiliate member **UAEPA** together with FIP.
