From this perspective, **FIP Beyond** is born: the new global circuit of the FIP, the **International Padel Federation**. In each tournament, at least three of the six categories listed will be contested — always including the +40 and +50 categories — depending on the number of entries, the characteristics of the venue and the availability of courts. A flexible model that reflects the variability of the total Prize Money in B1 and B2 tournaments.

**VALUING SENIOR PLAYERS** In B1 and B2 tournaments, senior categories (from +40 to +60) will feature dedicated Prize Money, with prizes awarded to champions, finalists and semifinalists, confirming the FIP's commitment to enhancing senior padel at an international level.

**A UNIQUE EXPERIENCE** Beyond competition, the FIP circuit will offer a complete “player experience,” with special activities dedicated to players within the official FIP framework. An approach that makes FIP Beyond a unique circuit in the international amateur padel landscape.

**RANKING AND MAJOR EVENTS** The international FIP Beyond Ranking will be determined by each player's best 11 results achieved on the circuit and will grant access to the main official events: the **FIP Beyond Finals**, the **FIP Beyond Continental Cup by Pairs** and the **FIP Beyond World Cup by Pairs**.

With FIP Beyond, the FIP takes a decisive step toward an increasingly global and structured padel ecosystem, capable of offering competitive opportunities, development and sporting recognition to players of all ages and backgrounds.
