Led Projects appointed FIP Official Lighting Supplier

The agreement will provide lighting for courts across FIP international circuits, using advanced and sustainable technology.

The **International Padel Federation** has signed an agreement with **Led Projects**, a Spanish company specialising in professional sports lighting and already a global reference for padel courts. Under the agreement, Led Light Projects will serve as **Official Lighting Supplier** to FIP.

The partnership marks a further step in the growth and innovation of the international circuits governed by FIP, with the aim of strengthening organisational and technological standards. Led Projects will supply lighting systems, helping to ensure optimal conditions for athletes, spectators and television broadcasts. These advantages are supported by the energy efficiency and sustainability of the technology, which also guarantees high-quality visibility.

Through this partnership, FIP reinforces its commitment to the international development and growth of padel, providing increasingly advanced playing conditions for athletes and spectators.
